SUMMARY

Motivated and results-driven Computer Science Engineering graduate with overall 3+ years of experience, seeking a challenging position within a organisation as a Software Engineer. Offering a strong foundation in various Backend Technologies with a proven ability to drive proficiently, deliver successful outcomes and collaborate within cross-functional teams.

COMPETENCIES

- Node JS
- React JS
- Express JS
- Git/Gitlab
- Javascript
- Agile
- JSON
- MongoDB
- Templating Engine(EJS)
- HTML5 , CSS3
- REST API's
- Next JS , Redux

PROFESSIONAL EXPERIENCE

Tata Consultancy Services   **July 2021 - Present**
Client : Barclays PLC

The project follows an agile approach, caters for Barclays Banking domain client . Given the substantial influx of documents and applications received daily by the bank, the project aims to reduce reliance on hard copies and transition towards automating the processing of incoming applications. This automation streamlines tasks previously performed manually, incorporating automated validations and checks for document accuracy and field entries.

Role :
- Understanding of requirements.
- Analysis of the project and implementation of the required changes.
- Automating documents using AI solutions and creating workflow.
- Deployments using Docker.
- Unit Testing.
- Client Interaction.

Technology Used : MERN Stack , JSON , Git/Gitlab
